

The Chiropractic Association of Louisiana

Presents

CAL's Gumbo Seminar: Ingredients: Risk Management, Ankle, Knee & Foot Techniques and add a little Nitric Oxide December 7-8, 2024

About this Program:

Prevention of Medical Errors & Risk Management

In this presentation, Dr. Hayes will discuss 18 Office Procedures Protection Strategies and help you to develop Proper Office Procedures. He will review what is covered in malpractice insurance and how new laws pertain to you and your practice. He will discuss various subjects such as the doctor-patient relationship and the contractual obligations imposed, legal standards of care, deviating from the standard of care-treatment errors, duties imposed by law, and how to be an expert witness. You will leave this seminar with forms and materials for use to keep your practice compliant and help protect yourself, your staff and your practice.

Knee, Ankle, and Foot Treatment

This presentation will also specifically look at getting very fast results for patients with knee, ankle and foot conditions. Discussion will include how to fix knee, foot and ankle pain including Osgood Schlatter's disease in 3 visits, Phantom Limb Pain in 1-2 visits, the most missed knee problem and how to fix it in 1-3 visits, Plantar Fasciitis in 6-8 visits, Sever's disease, turf toe and other such conditions. He will also discuss how to fix a sprained ankle in 1-2 visits.

Nitric Oxide

This class will also take you from how Nitric Oxide was discovered, to how to use it in your office. Discussions will be about the actual Intravital Cellular Microscopy of the effects of nitric oxide where you can see the effects of taking it, Endothelial dysfunction, Effects of Low Nitric Oxide, Reduction of Nitric Oxide and how it declines with age, Pathways for Nitric Oxide Production and Recycling, Scientific Validation of Nitric Oxide, Blood Pressure Reduction Demonstration, Scientific Validation of Nitric Oxide, Application of Nitric Oxide supplementation in your office for: High Blood Pressure, Raynaud's Phenomenon, COPD, Kidney Disease and Increased physical performance in sports, Erectile Dysfunction = Endothelial Dysfunction and findings from the High Desert Heart Institute Study on Nitric Oxide in 35 end stage heart disease patients.

What About Brad Hayes?

Brad Hayes, D.C., is a nationally known and entertaining, speaker who makes complex subjects simple. Twice president of the Chiropractic Association of Oklahoma, Dr. Hayes was also voted Chiropractor of the year twice by the Chiropractic Association of Oklahoma. He has treated professional athletes from around the country. One of the developers of Myofascial Disruption Technique, Dr. Hayes is also known for his research and has been published in national peer reviewed journals. He has been a team physician for an elite Hockey team and a semi-pro Soccer team in Tulsa. He treats many elite athletes from all over the State of Oklahoma. Dr. Hayes is well known as an expert in the insurance and medical malpractice field by chiropractors as well as the insurance industry. He has been an expert witness on many cases and has been teaching on the topics of Medicare, Insurance, Risk Management, Documentation, Medical Malpractice, Sexual Harassment and Practice and Professional Boundaries and Ethics.

What about Nathan Bryan, PhD?

Nathan Bryan, PhD is a highly sought-after doctor, researcher, and speaker. After completing his doctoral degree from LSU School of Medicine in Shreveport and a post-doctoral training as a Kirschstein Fellow at Boston University School of medicine, Dr. Bryan was recruited to join the faculty at the University of Texas Health Science Center. As a pioneer in the field of nitric oxide research, Dr. Bryan has written numerous research papers and books. He is currently an Adjunct Professor at Baylor College of Medicine and the inventor and founder of HumanN, Inc and Pneuma Nitric Oxide, LLC. He travels the globe to educate and create awareness regarding the essential nature of nitric oxide production in the body and what happens when one becomes deficient as we age. Dr. Bryan is considered one of the leading experts in Nitric Oxide in the World. His new and innovate science is changing the approach to blood pressure, Diabetes, Erectile Dysfunction and many more conditions. He has learned to bring nitric oxide to the work of skin care including Acne and wound healing with dramatic results!
